ACVECC EXAMINATION COMMITTEE

Additional Journal Article List 2013

This list is designed to bridge a perceived gap in the recommended reading between recent journal articles, non-core journals and textbooks. As such, this list contains articles 3-10 years old from core journals and articles within the last 10 years from non-core journals. This list is designed to contain articles the committee deems likely to inform or to impact on the clinical practice of veterinary ECC. We have made efforts to keep this list to <100 articles and we will review and update the list annually.
