

University of Minnesota | College of Veterinary Medicine

The Department of Veterinary Clinical Sciences invites applications for a full-time, primarily clinical faculty position in **Small Animal Emergency and Critical Care (ECC) Medicine**. Join a robust team of four full-time criticalists, residents, and interns in our state-of-the-art Veterinary Medical Center (VMC).

Position Overview

As a Criticalist at the University of Minnesota, you will play a vital role in providing specialty-level patient care while shaping the next generation of veterinary professionals. This role is designed for a collaborative clinician who excels in high-pressure environments and values a healthy, professional workplace culture. You will balance clinical excellence with didactic teaching and outreach, contributing to the department's goal of providing cutting-edge medical services and student-centered education.

- **Pay Range:** \$140,000 – \$185,000 (Based on experience and rank)
- **Work Environment:** In-person clinical service at the St. Paul Campus

Key Responsibilities

Clinical Service & Teaching (75%)

- **Lead Care:** Supervise and manage inpatient and outpatient ECC cases, providing expert diagnosis and treatment.
- **Mentor:** Supervise and mentor interns and ECC residents through case management, rounds, board review, and journal club.
- **Educate:** Provide hands-on clinical instruction and evaluation for veterinary students.
- **Collaborate:** Support VMC operations by sharing weekend/holiday shifts and providing telephone consultations to referring veterinarians.

Didactic Teaching, Research & Outreach (25%)

- **Professional Veterinary Education:** Deliver student-centered, active learning instruction across all four years of the veterinary curriculum.
- **Collaborative Research:** While not required, you are encouraged to engage in clinical trials or collaborative research with residents and Health Sciences faculty.
- **Service:** Participate in departmental meetings, collegiate committees, and professional organizations to support the university's mission.

Qualifications

Required:

- DVM/VMD or equivalent degree.
- Successful completion of an ECC residency (ACVECC or ECVECC) by start date.
- Eligibility for, or certification by, ACVECC or ECVECC.

- Minnesota State Veterinary Licensure (or eligibility to secure it by start date).

Preferred:

- Demonstrated excellence in clinical skills and interpersonal communication.
- A proven track record of, or strong interest in, veterinary education and student mentorship.
